Nations Line Up for War as President Trump Lines Up Seven Year Peace Plan

Nations Line Up for War as President Trump Lines Up Seven Year Peace Plan

In the world news today, we see the nations lining up for war, and not just conventional war but nuclear wars that can darken the sun and burn the earth in one hour. This scenario is prophesied as well as confirmed by scientific tests. Notice the Prophecy of what these bombs can do in this present prophesied generation.

First the Words of Yahshua Messiah:

Mattithyah 24:29

Immediately, *but* after the *Great* Tribulation of those days will the sun be darkened, and the moon will not give her light, and the stars will fall from heaven, and the powers of the heavens will be shaken.

Bombs that can darken the sun? Scientific tests say yes! The following article and essay from *Discover* magazine deals directly with the consequences of nuclear war.

Dr. Thomas was one of the four American scientists who, at the invitation of Senators Edward Kennedy and Mark Hatfield, met in Washington in December for a three-hour open discussion

with four Soviet counterparts. The subject of their discussion: the nuclear winter (DISCOVER).

Two scientific reports have recently been published, dealing with the probable effects of nuclear war upon the earth's climate and the life of the planet. The first discovery is already widely known within the scientific community of climatologists, geophysicists, and biologists here and abroad, and has been confirmed in detail by scientists in the Soviet Union. Computer models demonstrate that a nuclear war involving the exchange of less than one third of the total American and Soviet arsenal will change the climate of the entire Northern Hemisphere, shifting it abruptly from its present seasonal state to a long, sunless, frozen night. This will be followed after some months by a settling of nuclear soot and dust, then by a new malignant kind of sunlight, with all of its ultraviolet band, capable of blinding most terrestrial animals, no longer shielded from the earth by the ozonosphere. In the same research, new calculations of the extent and intensity of radioactive fallout predict the exposure of large land areas to much more intense levels of radiation than expected. The report is referred to as TTAPS, an acronym derived from the investigators' names: Turco, Toon, Ackerman, Pollack, and Sagan.

The second piece of work, by Paul Ehrlich and 19 other distinguished biologists, demonstrates that the predictions of TTAPS mean nothing less than the extinction of much of the earth's biosphere, very possibly involving the Southern Hemisphere as well as the Northern.

Taken together, the two papers change everything in the world about the prospect of thermonuclear warfare. They have already received a careful and critical review by scientists representing the disciplines concerned, here and abroad, and there already appears to be an unprecedented degree of

concurrence with the technical details as well as the conclusions drawn. In the view of some referees, the TTAPS report may even be understating the climatological damage implied by its data. The 20 biologists' paper, summarized by Professor Ehrlich, represents the consensus arrived at by 40 biological scientists at a meeting in Woods Hole, Massachusetts, last spring.

It is a new world, demanding a new kind of diplomacy and a new logic.

Up to now, the international community of statesmen, diplomats, and military analysts has tended to regard the prospect of nuclear war as a problem only for the adversaries in possession of the weapons. Arms control and the endless negotiations aimed at the reduction of nuclear explosives have been viewed as the responsibility, even the prerogative, of those few nations in actual confrontation. Now all that is changed. There is no nation on earth free of the jeopardy of destruction if any two countries, or groups of countries, embark upon a nuclear exchange. If the Soviet Union and the United States, and their respective allies in the Warsaw Pact and NATO, begin to launch their missiles beyond a still undetermined and ambiguous minimum, neutral states like Sweden and Switzerland are in for the same long-term effects, the same slow death, as the actual participants. Australia and New Zealand, Brazil and South Africa, could have as much to worry about as West Germany if a full-scale exchange were to take place far to the north.

Up to now, we have all tended to regard any conflict with nuclear arms as an effort by paired adversaries to settle such issues as territorial dominance or ideological dispute. Now, with the new findings before us, it is clear that any territory gained will be, at the end, a barren wasteland, and any ideology will vanish in the death of civilization and the permanent loss of mankind's memory of culture.

The risks of this kind of war have conventionally been calculated by the numbers of dead human beings on either side at the end of the battle, armies and noncombatants together. The terms “acceptable” and “unacceptable,” signifying so-and-so many million human casualties, have been used for making cool judgments about the need for new and more accurate weapon systems. From now on, things are different. Leave aside the already taken for granted estimate that in an all-out exchange of, say, 5,000 megatons, something like a billion people would be killed outright by blast, heat, and radiation. Set aside as well the likely fact that more than another billion would die later on, from the delayed effects of the climate and radioactive fallout.

Discover magazine, January/February, 1984

Darkening the sun is one thing these bombs will do but Yahshua Messiah shows it will be even worse. It will burn the earth. Yahshua even tells us how long it will take to do so. Read this:

Revelation 18:8-10, 17, 19

8 Therefore, her plagues will come in one day—death, and mourning, and famine; and she will be utterly burned with fire; for strong *is* Father Yahweh Who judges her.

9 And the kings of the earth, who have committed fornication and lived luxuriously with her, will wail over her, and lament for her, when they will see the smoke of her burning—

10 Standing afar off for the fear of her torment, saying: Alas! Alas! That great city Babylon, that mighty city! For in one hour your judgment has come!

17 For in one hour such great riches came to nothing! And every sea captain, and all the company in ships, the sailors,

and all who earn their living from the sea, stood afar off,

19 And they cast dust on their heads, and cried, weeping and wailing, saying: Alas! Alas, that great city, in which all who had ships in the sea were made rich through her wealth! For in one hour she is made desolate.

Burn the earth in one hour? Yes, read the following interview excerpt.

Atomic Armageddon is just 30 minutes away – former US Navy advisor

Published time: 7 Dec, 2015 07:31 Edited time: 7 Dec, 2015 09:50

https://www.rt.com/shows/sophieco/324941-nuclear-co;c-war-us/

Dr. Theodore Postol, former advisor to the U.S. Chief of Naval Operations, a professor at MIT, nuclear technology expert.

… US and Russia once again are pumping up their nuclear arsenal, and the Doomsday Clock shows it's just three minutes before midnight. Is nuclear destruction looming once again over humankind? …could Atomic Armageddon happen by accident?…

Sophie Shevardnadze: *…Ted, President Obama came into the White House calling for "Global Zero" – now, there are plans to spend a trillion dollars on an overall of entire nuclear*

arsenal. Why is this happening?

Dr. Theodore Postol: I think this is a consequence of the domestic politics.

SS: *Now, do you believe the U.S. is readying its nuclear forces for direct confrontation with Russia? Do you think nuclear war is possible now? At any scenario, do you see that?*

Dr. TP: I do think that an accidental nuclear war between the U.S. and Russia is possible. …I do think we are in danger.

SS: *What happens, hypothetically, if there is a nuclear war? Will a doctrine like a mutual destruction doctrine ever work again?*

Dr. TP: …somebody makes a bad decision with incomplete information, which is almost certainly what happens in the real world – information is never complete – you could have a massive use of nuclear weapons, and that, of course, would end civilization as we know it…

SS: *Now, Ted, tell me something. Explain to an amateur, to me, how does one launch a nuclear weapon? Is it as easy as pressing a button? How long does it take for a nuclear missile to reach its target?*

Dr. TP: The ballistic missile could be fired, basically, within 50 or 60 seconds, more or less, after alert being given to the operators. The rocket will then ignite…then it would release warheads. The warheads would float in the near vacuum of space under the influence of gravity and momentum, and in about 20-28 minutes would arrive at their targets, re-enter the atmosphere and explode. So the world could be, basically, finished off in anywhere from half hour to an hour upon the arrival of these warheads. …most nuclear warheads would be delivered in a very short time, probably **within half hour or an hour** interval.

Yahshua Messiah inspired **Revelation 18** to be written in the year 96 AY. Neither the knowledge, nor the bombs were available to mankind until 1934, but they were prophesied 1,838 years before they even started. These Prophecies prove themselves True, and you should start believing the Scriptures—every Word.

Yahshua also said:

Luke 24:25

Then He said to them: O fools, and slow of heart to believe all that the Prophets have spoken!

The prophesied increase in knowledge and the bombs started in the same year, 1934.

The Evolution of the Modern Computer. An Open Source Graphical History (1934 to 1950)

This is the home of the Computer Evolution File. This file attempts to provide a comprehensive graphical representation of the evolution of the modern computer for the period 1934 to 1950.

virtualtravelog.net

Nuclear Also Started in 1934

Leo Szilard – Patenting the Atomic Bomb

Hungarian physicist, Leo Szilard was the first person to conceive of the nuclear chain reaction and the atomic bomb. He was noted for his contributions to the fields of thermodynamics, biophysics, nuclear physics, and the development of atomic energy.

Leo Szilard was part of the group of scientists that invented the atomic bomb as part of the Manhattan Project.

Leo Szilard – Nuclear Chain Reaction Patent:

On July 4, 1934 Leo Szilard filed the first patent application for the method of producing a nuclear chain reaction aka nuclear explosion. His British patent included a description of a "neutron induced chain reactions to create explosions", and the concept of critical mass. The patent was given to the British War Office as part of the war effort.

nuclearweaponarchive.org

Yahshua inspired the **Book of Revelation** to be written in 96 AY, but notice the increase in knowledge and that the bomb didn't start until 1934. That was 1,838 years after the burning of the earth Prophecy was given. Both are scientifically accurate.

Read the increase in knowledge Prophecy in:

Daniyl 12:4

But you, O Daniyl, shut up the words, and seal the book to the time of The End; many will run to and fro, and knowledge will be increased.

Daniyl 12 was written 534 BY (Before Yahshua). That was 2,468 years before the knowledge increase started in 1934.

Mankind now has the knowledge and the bombs prophesied. The next and last thing on the agenda is the destruction. That will come with **the last 3½ years of the seven-year peace plan** that grabbed the interest of our current President, Donald Trump.

Full details of the seven-year peace plan that was signed in September 1993 are written in our books, *The Mark of the Beast,* Volumes 1 and 2; *The End*, and *Birth of the Nuclear Baby*. *The Mark of the Beast* was written in the 1970s and published in 1985, eight years before the seven-year peace plan was signed in 1993. These books are available today.

Call, write or email for information on these Prophecies and the prophesied Place of Protection. Yes! There is also a prophesied Place of Protection.

May Yahweh bless your understanding.

Love, True Love,

Yisrayl Hawkins
